

Blood Bank at High School Nov. 12th

This is the last Blood Bank for 1980, so, please, all you great Blood Donors, mark your calendars, and come to the Grayling High School and help the High School Junior Red Crossers make this the most successful High School Blood Bank yet!

The doors of the Gymnasium will be open at 9 a.m. and will be open until 3 p.m. The High School Donors-Students and Staff-are scheduled from 9 a.m. to 12 Noon, but if it is inconvenient for you to come after 12 Noon, come in the morning and you will be most welcome.

Remember, the Crawford County Transportation Service-Dial-A-Ride-will be glad to pick you up and take you to the High School to donate blood FREE—just phone 348-5409! And they will bring you back home too!

Blood is always needed, but particularly through the Holidays because so many businesses and church groups cannot handle Blood Banks from mid-December until after the first of the year.

So, please, mark your calendars and come to the High School between 9 a.m. and 3 p.m. next Wednesday, November 6th, and "GIVE A PINT!"

Junttila, Roach, Radebaugh, Weatherly Make MHS Squads

Grayling High School Athletic Director Mike Branch announced on Tuesday that John Junttila and Bill Roach, GHS seniors, had been selected on the Most Valuable Player team in the Michigan Huron Shores Conference for this past season. Receiving Honorable Mention this year were Jamey Radebaugh and Roger Weatherly.

Junttila quarterbacked the 1980 squad and ranked as one of the top passers in the league, ranking near the top with eight TD passes on the year.

Roach was his favorite receiver, hauling in 45 Junttila aeriels for 498 yards during the season and five touchdowns against league foes.

Radebaugh, a junior, was a hard-hitting safetyman on Coach Bill Klinger's defensive squad, Weatherly one of the leading linebackers in the conference.

Malicious Destruction, B & E's Highlight Sheriff Report

Breaking and enterings and incidents of malicious destruction of property highlighted last week's activity report from the Sheriff's Dept. Ten B & E's were reported and eleven malicious destruction complaints were investigated.

Car/deer accidents continued high, five reported during the period, prompting Sheriff Joe White to extend additional caution to area motorists to be on the lookout while traveling area roadways.

Six larcenies were reported, four suspicious behavior complaints and a like number of general assistance calls were received. Four radar detectors were confiscated during the period by sheriff's deputies.

The ambulance was called out on four occasions and two fire runs were made.

Incidents of harassment, prowler complaints, DUIL cases, possession of marijuana, reckless driving and attempts to locate round out the report for the week.

White once again urges homeowners to conduct furnace and chimney inspections as winter approaches. Plugged chimneys and furnaces in need of repair should be taken care of now, White said, to eliminate fire possibilities through the fall and winter seasons.

Earn Bobcat Pins

Cub Scouts from troops in Pack No. 3893 of Grayling were awarded Bobcat Pins in a "tossy-turvy" ceremony preceding last Wednesday night's Medal of Honor Presentation for Arthur Gelts, who received the Council's highest life-saving award.

Parents pinned on the bobcat pins for scout sons, who earned their first ranks as cubs.

In other business, Cubmaster John Kurk of Grayling taught a practical lesson in good grooming for Cub and Boy Scouts attending. Scouts straightened Mr. Kurk out in a hurry—he showed up dressed inappropriately for an official scout function. Kurk in reality is a trained Scout Committeeman. The "fun" exercise was led by Karen Golnick.

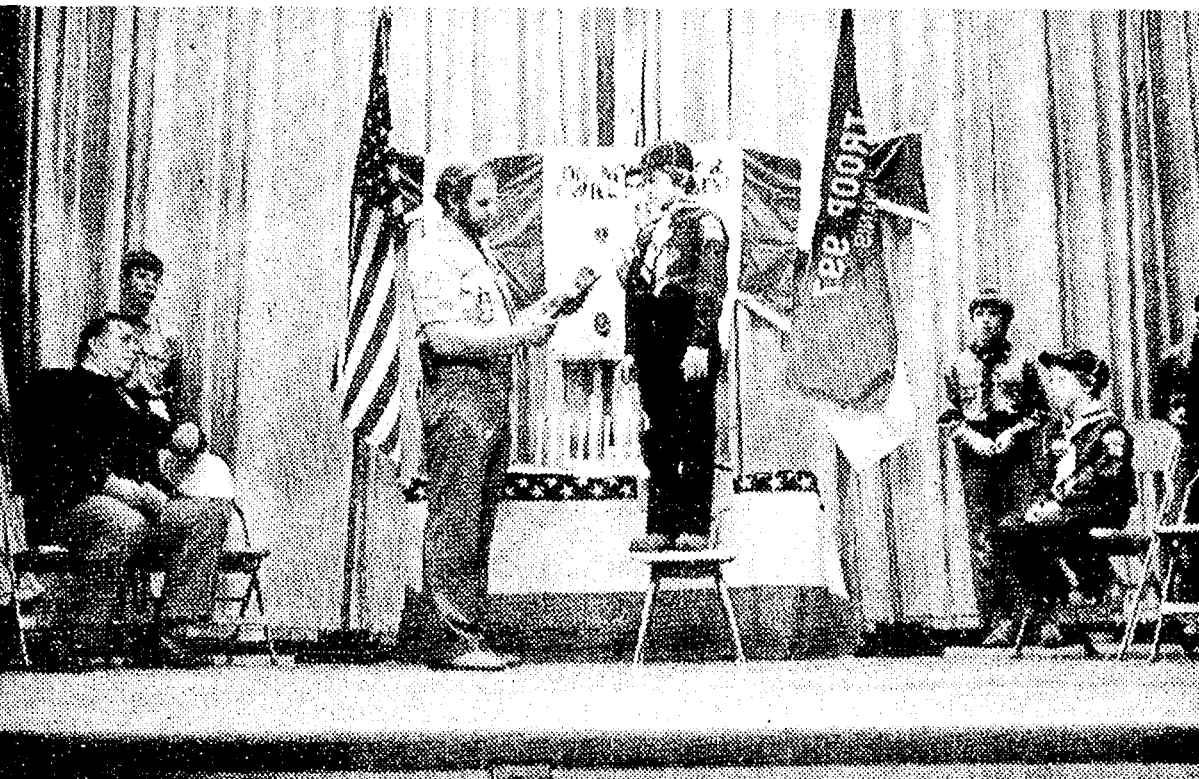

BAGS BEAUTY—Jim Dannenberg, Jr., of Grayling, bagged this six-point, 140 lb. beauty while bow hunting last Wednesday evening near Camp Grayling. Dannenberg said the buck was about ten yards away when he shot from a tree blind and traveled about 60 yards before dropping for good. (Joe Schrader photo)

Continue Work On County Budget Commissioners Set 1981 Salary Schedule

by Joe Schrader

Work will continue November 7th on preparation of the Crawford County budget for 1981, according to Finance/Budget Chairperson Jeanette Kitchen, who said the board decided to wait until after the general election on Tuesday before finalizing financial matters for 1981.

"We want to wait until the results of some of the tax proposals are known before proceeding," Mrs. Kitchen said about the board's decision.

The Budget Committee said another factor causing a delay was the uncertainty of contract negotiations with county employee, members of the American Federation of State, County and Municipal Employee bargaining unit. The county and union reached an accord on a new, three-year pact on October 8th, settling the financial package for members of the unit through 1982.

In the meantime, the Board of Commissioners approved 1981 salaries for elected and appointed county officials on October 22nd a schedule which becomes effective January 1st.

Board of Commission members will receive annual salaries of \$1,200 next year with an additional \$600 per year going to the Chairman.

Wind Up Season 2-7 Overall

Northmen Stop Vikes in Finale, 24 - 20

By Joe Schrader

The Petoskey Northmen raced to an early, 18 - 0 advantage, then hung on for a close, 24-20 conference victory over the Vikes Friday night, ending the season for both clubs in what turned out to be a disappointing year for Grayling followers.

The loss left the Vikings with two wins against seven losses overall, 1 - 6, in Huron Shores action. Cheboygan walked off with the league crown.

"Range firing will be conducted by units of Michigan Air National Guard during the period 11 thru 15 Nov 80. High performance fighter aircraft will be firing on the Air to Ground & Artillery Range which is located east of Guthrie Lake and north of County Road 612, during the period.

The ranges will be closed during the above dates and all persons are warned to stay out of the range areas."

The Vikes were unable to generate a running attack and Head Coach Bill Klinger said wind gusts throughout the game took the efficiency out of Grayling's aerial game. "The weather was a major factor," the coach said when it was all over, "the wind played a bigger role than I thought it would. Petoskey was able to move the ball on the ground and we couldn't."

The Vikes found themselves eighteen points behind before they managed their first down with two minutes left in the opening half. That was on their own forty and three plays later QB John Junttila connected. See Vikings on Page 13

In a special surprise ceremony held last Wednesday evening at the elementary school, nine-year old Grayling Cub Scout Arthur Gelts was awarded the Lake Huron Boy Scout Council's highest honor, the LIFESAVING CERTIFICATE OF MERIT, a prize he earned for saving the life of a fellow swimmer and friend while on a vacation weekend in a northern Michigan community last March.

The award was the first of its kind in Grayling Boy Scout history and was presented during an elaborate Medal of Honor Ceremony conducted by members of local Boy Scout Troop No. 997 under the direction of Scoutmaster Gary Cowie.

Arthur, who resides with his grandparents, Frank and Eleanor Scott of Grayling, is credited with saving the life of his nine-year old playmate, Todd VanDeVen, who wandered into deep water while the pair were swimming in celebration of Arthur's birthday at an indoor motel swimming pool in Mackinaw City.

Observers said Arthur became alerted to Todd's plight, and, without hesitation and even though he was not an experienced swimmer, dog-paddled to his friend's aid and managed to drag him to the safety of poolside.

When local scout officials learned of the endeavor, it was documented and submitted to the Lake Huron Council, which See Award on page 13

Carter Concedes

Huss, White, Lovely Winners

(By Joe Schrader)

Voters in Crawford County flocked to the polls in record numbers Tuesday and joined the nation in handing Republican challenger Ronald Reagan a sweeping victory over Jimmy Carter in the race for the Presidency, marking the first time in 92 years that a Democratic incumbent has failed to win a reelection bid. Carter conceded defeat shortly before 10:00 p. m. eastern standard time.

In local races, Republican challenger John B. Huss ousted Democratic Prosecuting Attorney Alton T. Davis, outpolling the incumbent, 2586 to 2277. Huss returns to the top law enforcement post next year, having once served from 1973 to 1977.

Democratic Sheriff Joseph White fought off the challenge of two opponents, Harold Hatfield, Republican, and sticker/write-in candidate, Arthur Clough, to retain the post for the next four years. White garnered 2448 votes, Hatfield received 1588 and Clough, 875.

Leo Lovely (R) won easily over Democratic Challenger Glenn Sawyer, polling 2969 votes to claim the combined County Clerk/Register of Deeds position, nearly doubling Sawyer's vote total of 1755.

Republican Norman F. Parker claimed a seat on the County Road Commission Board, outpolling Bernard Maurer, Democratic candidate, 2581 to 1986.

Republican County Treasurer Joseph Wakeley ran unopposed.

The County Proposal (Proposition One) to provide increased millage to fund programs for Senior Citizens passed by 635 votes, garnering 2679 yes votes to 2044 no votes.

Frederic Township voters turned down by a narrow margin a four year, two mill increase to support the township fire department, the proposal, Proposition Two, went down to defeat, 204 to 200.

In the only contested Commissioner races, in District 5, Republican Walter Nowak outpolling Democrat Donald Welser, 430 to 275; and in District 7, incumbent Democrat Andie Neilson won over Republican challenger Linda Harder, who garnered 319 votes and sticker/write-in candidate, Jerry M. Kraycs, who polled 79 votes.

The above are unofficial tallies subject to approval by the Board of Canvassers.

From Our Corner...

HEY! Look over here...we got moved out of our corner for this week so it is going to be a little strange...we're not used to writing left handed...we prefer the right hand page, but, when someone wants a full page and his request is page three, no way are we going to turn that down...if we had requests like that every week, I'm sure we would find another spot for our mug and corner...

This is sort of an odd night, just can't seem to get with it, could possibly be election day is tomorrow and the electricity has filled the air now for the past week as count down continues...this could be the most undecided election that the United States has ever experienced for the high office of the Presidency...and not only there, but, here in the State of Michigan with all the Proposals to decide on...in fact our Senators and Congressmen from Michigan seem to be taking a back seat to the propaganda dished out over the tax proposals...

Election night the Avalanche will get as many results as are possible before we have to close page one and make the trip to Mt. Pleasant early Wednesday morning...those township offices and others that we are unable to get will be published in next week's issue...we will endeavor to get the top county office winners plus the commissioners who have contests...

From all reports that we have heard, Halloween night and Devils night were quite calm and the youngsters are to be congratulated...in other towns they seem to run rampant...we were in Mt. Morris over the weekend and it seemed like everywhere one looked the trees in yards were strewn with toilet paper...seems as they see who can throw the most around and call it Ping a tree...that really isn't bad if that is all the mischief youngsters get into...

Last Wednesday we were surprised when daughter Toni and Stef showed up to have lunch with us...T.J. had to stay home as she is a big first grader now...the occasion was the ol' fella's birthday...we received a cute card with the ending of the verse saying "just think your one day closer to the museum of natural history" not too far wrong...

With not too much to relate at this hour prior to election day we will mention just a couple things that we hear and are asked for from those who bring in copy for the paper...the two predominant ones are, we want you to put this on the front page, you do it for this church or organization, why not our group...the other is, we want this in a conspicuous place and want you to run it for three weeks...the only answer we can give is that the format of the Avalanche changes every week...it is the editor's prerogative what goes in and where at in each issue...space is the essence...and also what is the most important...

Next Tuesday, Nov. 11th, is in our mind one of the most sacred days on the calendar for the whole country...Veteran's Day...a day set aside to pay respect to those who gave their lives serving their country...is it too much to ask of each of us to pause for just a moment next Tuesday and pay homage to those who paid the supreme sacrifice?

The Bible Speaks

From Calvary Baptist Church

THE OCCULT

Part 3

Our third study of the Occult deals with Magic, Witchcraft or Voodoo. This includes the inflicting and healing of diseases; love and hate magic and curses; fertility charms, death magic and other such actions.

The safest way to avoid problems with the Occult is avoid all contact with them. Many people who claim these occult powers can either remember contact with someone during the past three or four generations who claimed such power, or they have a heredity problem of succession from an ancestor.

One should avoid even simple forms of magic like Hypnosis. Another form of magic is mental suggestion. Here demons

carry messages from one person to another covering great distances.

All healing is not of God. Some healing is done by occult powers. Those who receive such healing may also develop mediumistic abilities. Many claims to charismatic power and gifts do not square with the Bible. If your experiences in these areas leave you depressed and suffering from some emotional disturbances, you may wish to examine the source of your problem.

The six things which take place, and God hates most, take place when Satan gains control of your mind. Read Proverbs 6:16-19: "These six things doth the Lord hate: yea, seven are an abomination unto him: A proud look, a lying tongue, and hands that shed innocent blood, A heart that deviseth wicked imaginations, feet that be swift in running to mischief, A false witness that speaketh lies, and he that soweth discord among brethren."

Satan is trying to gain control of your mind and mine. The best way to prevent Satan from gaining a foothold is to know our Bible. In this way, we have the "mind of Christ". I Corinthians 2:16. The Bible is our weapon in spiritual warfare. Ephesian 6:11-18. Beware, Satan appears as an angel of light. 2 Corinthians 11:14. He likes to teach us "doctrines of demons." I Timothy 4:1.

Satan's power will increase as the time approaches for the anti-christ to return. Don't reject the certainty of the Bible for the uncertainty of the occult. (adv.)

Dear Mr. Editor:

Just have to say a Hooray for this year's Halloween Ghosts and Goblins.

In all the years I have been giving out treats this years was the greatest for me.

Nine out of every 10 children that came to the door were not only showing great manners with their thank you's and have a nice evening, but the bigger kids this time were helpful and kind to the littler folk. In the past there was a lot of shoving and pushing, but this year made all of us parents proud.

Thanks kids for giving us older kids some fun and a great evening we too were able to enjoy.

To Present "Summertree" Nov. 13 - 15

"Summertree," the fall play to be presented by the Grayling High School Players on November 13-15, will be the last drama for senior actors Steven Kucharek and Gussy Konopnicki. Steve graduates in January and will head for Lansing Community College, and Gussy hopes to travel to Australia on the Youth for Understanding program.

In "Summertree," Steve and Gussy portray the parents of a college-age son who wants to become a concert pianist. The father, however, insists that the son go to "regular" college, and the mother is too weak to intervene. When the father refuses to support his son through music school, the young man drops out of college and is eventually drafted. Shipped to Vietnam to

fight, he dies on the battlefield. The father and mother must then come to terms with their grief and guilt.

It is never an easy task for teenagers to portray middle-aged characters, but according to Nancy Lemmen, "Summertree's" director, both Steve and Gussy are doing an admirable job. They bring to this fall's performance several years of experience in GHS theatre, ranging from comedy to drama to musicals. Steve was last seen as Lieutenant Brannigan in "Guys and Dolls," and Gussy last appeared in "The Night of January 16th," which played in the winter of 1980.

Steve is the son of Edward and Bonnie Kucharek, and Gussy is the daughter of Gustav

and Beryl Konopnicki.

"Summertree" performances are Thursday, Friday, and Saturday, November 13, 14, and 15, in the Joseph Stripe Auditorium of Grayling High School. Showtime is 8:00 p.m. Tickets, at \$2.00, may be purchased in advance at Flowers by Josie, the Grayling Mercantile, Mac's Drugs, or from any cast member. They can also be bought at the door on the evenings of the performances.

Libby is Dr. Elizabeth Matson, G.H.S. Class of 1930, who will retire from the University of the Pacific, Stockton, California after 35 years in Physical Education. As a youngster, she was influenced by her older brothers, Farham, '24 and Stanley, '25. They encouraged her to use her athletic ability (Tom-boy was the old-fashioned way to put it). She played on our Girl's Basketball team. She attended Battle Creek where she learned the principles of Physical Education for the Handicapped, bringing that knowledge to UPO in later years, which instituted a Program for the Physically Handicapped. Libby also helped organize the Special Olympics in Stockton.

She came to UPO in 1945, acting as Head of Physical Ed Department with a starting salary of \$2500.00 per year. In the late 1950's she started a

Fencing Program and has been the only fencing instructor the School has ever had.

She comes home to Grayling every year, she travels all over the world, even making her own sound movie of a lioness and her cubs while in Africa. She plans more travel when she retires at the end of 1980-81 school year.

To quote Libby, "My best friends have been my students, even those I kicked out of class". I can believe that. We wish her a happy retirement. She has never lost touch with us here at G.H.S.

REPORT ALL POACHING—The DNR's "Report All Poaching Program" is aimed at stopping poaching and other violations of fish and game laws. Some violators don't even use the game that they kill, letting the animal go to waste, such as the fawn pictured here. Mike Mol, a DNR Conservation Officer stationed at Houghton Lake, found two dead fawns alongside the road in Roscommon County recently. "Someone shot them, dragged them out to the road, and neatly line them up," he says. Anyone having information about fish and game law violators should call the Department of Natural Resources toll-free hot line number 1-800-292-7800.

DNR Outlines How To Report a Violation

Lansing—The Department of Natural Resources anti-poaching campaign needs public cooperation in its effort to stop violations of the state's fish and game laws.

To encourage that cooperation, the DNR has established a toll-free 24-hour law enforcement hot line, 1-800-292-7800, for the public to call when they have any information on a fish or game law violation.

But what information should the public report? Ransom Hill, coordinator of the DNR's anti-poaching campaign, says a citizen who witnesses a violation should start by attempting to answer as many of the essential questions of who, what, when, where, how, and sometimes why, as possible.

"With answers to these questions, the conservation officer may be able to develop a case against a suspect," he says. "People, acting as witnesses, are our most valuable source of information."

What should you specifically look for as you witness a violation? To begin with, you might look for a car. If you see one nearby, note the make, model, color, and license number. Was there anything unusual about the vehicle that connects it with the violator—a broken tail-light, for example? The license number is the most important piece of information, so write it down if you can.

Did you see the violators? Do you know them? Can you describe them?

Often people get so excited when the law is being violated that they cannot remember any details to tell law enforcement personnel. Try to remain as cool and collected as possible. Obtain as much information as you can about the incident; then write it down immediately. To rely on your memory later when you talk with the officer will only result in distorted information.

Remember, you are not a law enforcement officer. You are not trained, nor do you have the authority to enforce the law by making arrests. If you overreact and detain someone unlawfully, you may be held responsible for your actions.

"In short, the best course of action for the citizen interested in assisting the conservation officer is to gather the information, go to the nearest telephone and call for assistance," says Hill. "In addition to the toll-free number, you can call your local conservation officer, or local DNR district or regional office."

Hill emphasizes that reporting fish and game law violators is not something to be ashamed of. "Reporting the activities of slobs who continue to insist on doing things their way—in direct violation of the law—is simply being a good citizen."

"It's time to quit turning our heads and uttering the words, 'I don't want to get involved,'" he says. "People who steal fish and game are stealing part of our natural resources. Those resources belong to all of us."

News of Good Things Growing...

Although you can't see butter, milk and cheese growing in the fields and being harvested, these products are also good things growing in Michigan!

About 400,000 dairy cows on 8,000 Michigan dairy farms supplied consumers with almost five billion pounds of milk in 1979 (about 563 million gallons), according to the Michigan Department of Agriculture. Output per cow was a record 12,166 pounds last year, and that's enough milk to furnish eight families with a half gallon of milk each day for a year.

About one-third of the milk production was used in making 32 million pounds of butter, 46 million gallons of ice cream, ice milk and sherbet, and 80 million pounds of cheese.

Milk is the largest single item sold from Michigan farms, accounting for about a quarter of farmers' cash receipts, or \$582,498,000 last year. With processing, packaging, transportation and marketing costs added, this represents \$2.9 billion to the state's economy.

Michigan consumers are assured quality milk and manufactured dairy products. Trained MDA inspectors routinely check parlors where cows are milked and milk house equipment on farms for sanitation. Only farms issued a state permit with sanitation approval may supply Grade A milk to dairies.

Out state was the first in the nation to adopt Grade A fluid milk laws, in 1965, which require all fluid milk bottled here to meet strict Grade A standards.

Dairy plants processing milk and manufacturing butter, and cheese processing plants are also routinely inspected by MDA for sanitation and quality.

Attend the Church of Your Choice
The House of Kings

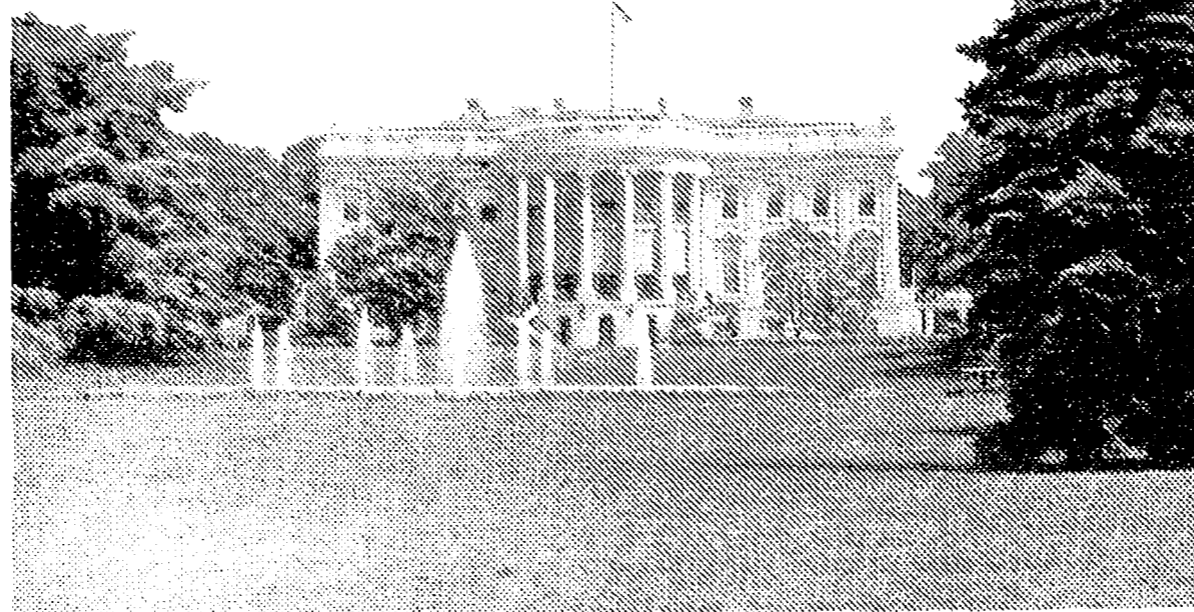

What stories could be told by the White House on Pennsylvania Avenue. It has seen men plucked from the ranks and lifted to the heights of power almost overnight; it has housed large and small families, fed them, entertained them, challenged them and watched them eventually depart to make way for newcomers.

Think of the secrets this House has heard — the hopes and plans for a nation's future. No doubt about it... the White House could fill many books with the stories it has witnessed.

Each president has been given a great privilege, as well as a grave responsibility. The opportunity to lead your nation as commander-in-chief is a rare one indeed.

There is another king who has led and inspired the lives of countless millions over the ages. He needs no White House. He is everywhere. His power is infinite, and His oval office is in the hearts of people everywhere. Let His love and guidance sustain you. Worship this week in the House of your choice.

with Bill Roach for 60 yards and a TD to get the Vikes on the board. Brian Yoder booted the point after but Grayling failed, 18-7 going into the lockerroom. Petoskey struck again late in the 3rd quarter to up their lead to 24 - 13 when Ted Methner brought Viking fans to life with a 70 yard TD return on the ensuing kickoff to bring Grayling within striking distance. The Vike defense stiffened to stop the Northmen the rest of the way but Grayling failed to get a sustained offensive drive going, on one occasion stalling in the fourth quarter after penetrating to the Petoskey 26. But with the game out of reach and only three seconds left, Juntilla tossed a 20 yard scoring strike to Roach again, Yoder booted the PAT and the Vikes had their final TD of the year, good for purposes of statistics only. TAGGING THE VIKES: Petoskey rolled up 320 yards total offense Friday night, 272 on the ground and another 48 through the air. The Vikes on the other hand could manage only 32 on the ground but moved for 142 through the airways for 174 total yards...

Juntilla hit on nine of fifteen passes, Roach being his main receiver with five receptions and two TD's and 109 yards. Dan Lucksted hauled in two for 13 yards, Terry Norman snagged one for 22 and Tracy Fagan, one for eight yards...

Roach hauled in 45 passes during the season good for 498 total yards and seven touchdowns...

Klinger credited Steve Allen, Brad Trenary, Paul Brackenbury and Craig Colten defensively, naming Terry Norman as well for his efforts in the safety position.

Award

analyzes hundreds of requests for award consideration annually. Arthur's life-saving effort was awarded the highest certificate of merit the Council is authorized to approve, one that is given only when the highest level of achievement is attained.

Presenting the award on Wednesday was Tom Pockrandt, AuSable District Commissioner from East Tawas, who was assisted by Grayling Mayor Sandy Thompson. On hand for the special ceremony were scouting officials Russell and Connie Baughn, Round Table and Unit Commissioners respectively, along with District Executive, Pete Shannon.

Also witnessing the presentation was a grateful Todd VanDeVen, his brother Scott and mother, Mrs. Marty VanDeVen, along with a host of local scouts and well-wishers, including Arthur's proud grandparents, Frank and Eleanor Scott.

"I felt it was a good deed and that is what friends are for," a humble Arthur said matter-of-factly following the incident, "Todd would do the same for me."

While explaining how Arthur came to his aid, a grateful Todd VanDeVen, said, "...Arthur came and brought me to the pool steps and then I felt safe. Thank you, Arthur. Your friend, Todd."

Both are members of Cub Scout Pack No. 3993 and two scouts that the people of Grayling can be proud of.

Dr. Gould Named Diplomat of ABFP

Kansas City, Mo.—Dr. William D. Gould of Maxwell AFB, Al, formerly of Grayling has been named a diplomate of the American Board of Family Practice (ABFP) as a result of passing a certification examination offered by the ABFP. He is now certified in the medical specialty of family practice.
The intensive 2-day written examination is designed to prove the candidate's ability in the areas of internal medicine, surgery, obstetrics, gynecology, pediatrics, psychiatry and community medicine.
To qualify for the examination a physician must have successfully completed three years of residency training in family practice. There are some 382 such training programs in teaching hospitals and university medical centers across the United States.

ABFP diplomates also must continue to show proof of competence in the field of comprehensive, continuing care of the family by being recertified every six years. No other medical specialty requires diplomates to prove competence on a continuing basis.

The latest group of diplomates brings the total number to more than 24,000. Most are members of the Academy of Family Physicians, the national association of family doctors. The Academy was the first national M.D. group to require members to take continuing medical study, and was chiefly responsible for securing specialty status for family practice.
